

THE GREAT 2022 BUG HUNT

**Enter this exciting competition
to explore the bug world!**

What will you find?

Simply identify a local habitat, for example, school grounds, local woods, or a nearby park, and then go and explore! Look under those rocks, move those leaves aside, watch which insects go in and out of each flower to discover the bugs around us!

Then record your findings – it's that simple! Find out more about the bugs you've found – what do they eat, where do they live, what are their body parts called? And then draw them. You could also submit a tally chart, a story, or even a poem!

Great prizes to be won!

**"It's so addictive
I can guarantee
once you've been
on a bug hunt you
will never ever
be bored again."**

Nick Baker
